Word has been received here of the marriage of Phil Pizer, the proprietor of the "Quality Store" of Lewellen, to Miss Bertha Warner of Birmingham, Alabama, at Birmingham, on Wednesday July 12.

This comes in the nature of a surprise to most of Mr. Pizer's friends who little suspected his purpose when he left for the east immediately after the Fourth ostensibly on a purchasing expedition. After the wedding Mr. Pizer and his bride left for New York and other points in the east to visit with friends and to purchase a stock of goods for his fall and winter trade.

They are expected to arrive in Lewellen about August 15 and will be at home to their friends in the new Henry Tilger cottage in the east part of town. This newspaper joins in extending congratulations and well wishes to Mr. and Mrs. Pizer.—Oshkosh Herald.

Comparative Farm Animals

An exhibit showing the grades and values of market stock is being planned for the State Fair by the Animal Husbandry Department of the Nebraska Experiment Station. Various grades of cattle, hogs and sheep will be purchased on the open market and exhibited with their respective prices. "Pigs is pigs" no longer, and these prices will show clearly the relation between quality and the producer's profits.

The exhibit will be housed in a big tent just north of the Judging Coliseum. It should be of decided interest to everyone, more particularly the smaller stockmen.

The Buttermilk Brigade

While fighting the prairie fire east of Alliance last Thursday afternoon the heat was intense and a number of the boys from town, who had gone out to help, felt quite fatigued after the blaze had been gotten under control. On arriving at the Ferdinand Seidler farm, near the scene of the fire, the boys were pleased when Mrs. Seidler invited them to help themselves to the monster jar of buttermilk which was in the milkhouse. The Herald scribe kept tab as nearly as possible on the capacity of those present, with the following scores:

Harry Coursey, two quarts, one pint.
"Dutch" Maunier, one pint. He got there too late.
George Ellis, three quarts.
Marshal A. B. Wheeler, three quarts, one pint.
George Snyder, three quarts, one gill.
Vivian Hall, two quarts.
Lloyd Thomas, modestly forbids us telling.

From present indications a match for the heavyweight wrestling championship of the world will be staged for Wednesday night, September 6, at the Nebraska State Fair. Joe Stocher, the Nebraska product and champion of the world, has already accepted and the other principal will likely be the world renowned Zbyzsko.

DRUGGY PEDDLERS

Men Who Were Selling Goods without City License Were Fined Seven Dollars Each

Two Syrian peddlers, Joseph Mike and Joe Mike, brothers, were arrested Saturday, charged with peddling goods without a city license. That they knew a license was necessary was proven to the police magistrate when they showed a license given them at Scottsbluff.

The men were each fined seven dollars in police court Saturday and left the city on the afternoon train for Scottsbluff. When asked why one was named Joseph and the other Joe they explained that there were so many in the family that the supply of names ran short before their parents got around.

An Expensive Prescription

An Alliance man who recently took a trip to New York City had an experience that gave his friends some fun and was a joke on himself which he appreciated—after it was all over with. While stopping at the Hotel McAlpin his attention was called to several large brown spots on his hands which looked rather dangerous. He hunted up a city directory and found the address of a skin specialist. Bright and early the next morning he hurried in fear and trembling to the office of the aforesaid specialist. When his turn came for the examination he dreaded the verdict, looking for nothing less than leprosy and thinking how hard it would be to leave his home and business back at Alliance. "Young man," said the specialist, "you have sunburned your hands. Here is a prescription that will cure you." The Alliance man paid the specialist's fee, which was ten dollars, and took the prescription to a drug store. The druggist mixed up a quantity of olive oil and glycerine. This cost fifty cents more. "Peace of mind at any price" is now the Alliance man's slogan.

FORD CARS CHEAPER

Reduction of Eighty Dollars Made on August First by Henry Ford on All Cars

As will be noted by the announcement made in The Herald this week by the Keeler-Coursey Company, local agents, the price of the Ford auto was dropped eighty dollars Tuesday, August 1.

While it is guaranteed that there will be no further reduction on this price before August 1, 1917, there is no guarantee against a raise in price. With the immense increase in the price of materials it is considered phenomenal that the price could be reduced as has been done. A majority of the companies manufacturing cars have raised instead of lowering the price.

NO MORE WIFE FOR HIM

V. L. Thompson Refuses to Live with Wife Who Uses All of Income and Leaves Him Nothing

V. L. Thompson, who is working at Hoffland, was arrested Monday noon on complaint of his wife who charged him with threatening her life and with discharging a shotgun in their home at 212 Big Horn avenue.

Thompson had been drinking before the quarrel and claims that the gun was accidentally discharged. He is a carpenter and draws good wages, but claimed that the wife used it all. He claimed that he wanted her to move to Hoffland and that she refused to do so and started a quarrel with him.

Thompson was fined on a charge of disorderly conduct. He paid the fine and left for Hoffland Monday evening, claiming that he was "done for good" with his wife.

The commercial club is considering a couple of applications and will probably have another man for the position within a couple of days. In the meantime John W. Guthrie is acting as temporary secretary.

Murdered at Scottsbluff

Scottsbluff, Nebr., Aug. 1—Clifford Tuttle, about 30 years of age, was murdered here last night about 9 o'clock by his divorced wife. They lived here about a year ago, and were divorced last spring.

They had both been away and both came back last Saturday and were seen together on the streets. They were heard quarreling.

She induced him to go with her for a walk last night, and one block off Main street, on a comparatively dark street, she shot him twice with a small caliber revolver.

The first shot entered under the left arm. He called for help and immediately the second shot was fired. The second shot entered just below the left nipple. Tuttle died almost instantly.

Mrs. Tuttle shows no remorse and when interviewed at the jail refused to talk, except to say that she had good reasons for shooting him and would prove it in court.
